

# Sumiya Gombo-Erdene

Seattle, WA | P: 2028552213 | sumiyagombo840@gmail.com

Full Stack Developer with 3+ years of experience building cloud-native SaaS platforms, developing data pipelines, and designing scalable architectures. Skilled in full-stack development, API integrations, and ETL processes to ensure seamless data flow. Passionate about collaborating with engineers and data scientists to establish best practices.

## SKILLS

---

**Languages & Frameworks:** JavaScript, TypeScript, Python, HTML, CSS/Sass, [Node.js](#), [Next.js](#), Spring Boot, React

**Tools & Platforms:** GitHub, GraphQL, MySQL, MongoDB, Vercel, Render, AWS, Azure, PostgreSQL

## WORK EXPERIENCE

---

### PineCone Studio

Bellevue, WA

#### Software Engineer

June 2021– Present

- Built and deployed 3+ internal tools, including web applications and complex forms using **React** and **Typescript** to deliver high-quality solutions.
- Developed **RESTful API endpoints** using **Node.js** and **Express.js**, integrating with **MongoDB** and **PostgreSQL** ensuring secure and efficient data handling for web applications.
- Designed and implemented a multi-step onboarding form that incorporated real-time validation and local storage, boosting completion rates by 40% and reducing form abandonment by 30%.
- Led end-to-end development of a device management system using microservices architecture, improving scalability and reliability through comprehensive unit testing.
- Created system architecture diagrams and documentation, facilitating successful knowledge transfer across 4 development teams
- Established CI/CD pipelines using GitHub Actions, reducing deployment time by 60% and improving code quality through automated testing

## PROJECTS

---

### Expense Tracker

Feb 2023

- **Developed and deployed a full-stack financial tracking app** using **Next.js**, **Node.js**, **Express.js**, and **PostgreSQL**, allowing users to track and manage their expenses.
- Implemented responsive UI using React and Tailwind CSS, providing users with an intuitive and accessible interface across devices.
- Built automated expense categorization system, processing 1000+ transactions monthly with 95% accuracy

### E-Commerce Website for Small Business

April 2024

- **Designed and developed an e-commerce platform** using **React**, **Node.js**, and **MongoDB**, facilitating product listings, cart management, and secure transactions.
- Implemented responsive UI using React and Tailwind CSS, providing users with an intuitive and accessible interface across devices
- **Built RESTful APIs** for handling user authentication, product management, and order processing, ensuring smooth operations of the online store.

## EDUCATION

---

### Nest Academy

Full Stack Software Engineer Certification

Seattle, Washington

2020-2022
